

Clink Clank

Sensory Bottle

You will need:

- Nontransparent plastic bottle with lid (so that the sound is the main focus of the activity).
- Lots of small metal items (screws, nuts, bolts, etc.).
- Strong glue.
- Tape (optional).

Method:

1. Pour the metal items into the bottle. A nearly full bottle will have more of a clinky metal sound.
2. Secure the lid with hot glue or strong glue. You may also wish to tape around the lid for extra security.
3. As you shake and spin the bottle, listen to the metal clinking and clanking inside.
